IMPERIAL TABLES

IMPERIAL TABLE I

Area, Houses and Population

- Notc.*—1. Statistics relating to area, towns, villages, occupied houses and urban and rural population of the State by Mahals are shown in this Table. During the previous Censuses, these statistics were given only for the State as a whole. But this time, wherever necessary, the Mahal has been chosen as a unit. Separate figures for the City of Bhavnagar are also shown.
2. The area of the State shown in this Table is 2,961 square miles, an increase of 101 square miles upon the area of the last Census, as a result of the Revision and Survey Settlement carried out in the State during the past decennium.
 3. In column 3, "Towns" includes the City of Bhavnagar and places having municipalities.
 4. In column 4, "Villages" means Revenue villages excluding (i) those which have been wholly absorbed in towns or (ii) those which contained no population, *i. e.*, were deserted on the Census Night.
 5. In columns 5, 6 and 7, "Occupied Houses" are buildings or parts of buildings inhabited by a commensal family. In the City of Bhavnagar, this definition was slightly modified.
 6. In columns 9, 12 and 15, "Urban" population means population enumerated in Towns as defined above, and "Rural" means that enumerated in other places.
 7. Detailed figures by Tappas are shown in State Table I.

IMPERIAL TABLE II

Variation in Population during last fifty years

- Note.*—1. This Table gives comparative figures of the total male, and female population of the State by Mahals during the last fifty years. The intercensal variation since 1881, and the net variation during 1881-1931 are also shown.
2. The two villages of Sakhadsar and Rajapara in the Bhandaria Tappa of the Daskroi Mahal have been transferred to the Trapaj Tappa of the Talaja Mahal in the year 1923. The population of the previous Censuses given in this Table has, therefore, been adjusted on the basis of areas of these two Mahals, as they stood on 26th February, 1931.

IMPERIAL TABLE III

Towns and Villages classified by Population

Note.—1. The terms "Towns" and "Villages" have been defined in the Note to Imperial Table I. "Village" also includes a *para* or an inhabited place which forms a part of the administrative area of the revenue village. The following statement explains the increase of 7 in the number of inhabited places over that of inhabited villages :—

Mahal	Inhabited place gained		Cause
	Number	Name	
Daskroi	1	Navagam	Inhabited during 1921-31
Siber	1	Kanivav	Do
Umrata	4	Krashnapara Navagam Thapnath	Do Do Treated as a sub-member of the parent village
		Dholla Vishi	Do
Kundla	1	Mitjala Para	Do
Total	7		

Note.—2. The number of inhabited villages shown in the Table is less than the number (665) of revenue villages by 11 for the causes outlined in the statement below :—

Mahal	Village Lost		Cause
	Number	Name	
Daskroi	1	Juna Vadwa	Wholly absorbed in the city of Bhavnagar
Siber	3	Mahadevpara Kachotia Ratanpar	Deserted Do Do
Botad	2	Ujalvav Bhamaria	Do Do
Kundla	2	Kunkavav Jaswantpara	Do Wholly absorbed in Kundla Town
Lilia	1	Govindadi	Deserted
Talaja	2	Mahadevpara Bapasara	Do Do
Total	11		

Note.—3. Before classifying the towns and villages under various classes, shown in this Table, the population enumerated in encampments, boats and running trains has been excluded.

IMPERIAL TABLE VII

Age, Sex and Civil Condition

- Note.*— 1. This Table gives the statistics of Age, Sex and Civil Condition of the total population and each religion separately. It is divided into two parts. Part A deals with the State as a whole, and Part B with the City of Bhavnagar.
2. The ages given in the Table are smoothed according to the formula for redistributing ternary and septenary groups into quinary groups suggested by Mr. Meikle, Actuary to the Government of India, and given at page 23 of the Bombay Census Code, 1931, Part II.
3. In the case of the City, "Other Religions" includes only two married male atheists, one each in the age-groups, 15-20 and 20-25. A separate sub-table is not printed for them in order to economise space.

IMPERIAL TABLE VIII

Civil Condition by Age for Selected Castes

- Note.*—1. This Table comes to be compiled for the first time at the present Census. Information given by Table VII is given here for certain Selected Castes, Tribes or Races, the basis of selection for this Table, as also for others that follow, being their having at least two persons per mille of the population. The rule has, however, been slackened in favour of a few castes of local importance.
2. The age statistics given in this Table are not smoothed, but are compiled from the figures returned in the Enumeration books.

IMPERIAL TABLE IX

Infirmities

- Note.*—1. The infirmities dealt with concern the insane, deaf-mute, blind and lepers. This Table is divided into three parts. Parts A and B show the distribution of the infirm by Age and Mahals respectively. Infirmities by Selected Castes, Tribes, or Races are shown in Part C.
2. Columns 2 to 4 in Parts A and B refer to the number of *cases* rather than to the number of *persons* so called, as a person suffering from two or more infirmities has been shown under each of them separately.
3. The nine cases of more than one infirmity are, however, distributed as under :—

Infirmity				Persons
Insane, Deaf-Mute and Blind	1
Insane and Deaf-Mute	3
Insane and Blind	3
Insane and Leper	1

IMPERIAL TABLE XI

Occupation by Caste, Tribe or Race

- Note.*—1. Part A of this Table shows the various occupations in which certain occupational Castes, and other Tribes or Races are engaged. Like Tables VIII and XIV for Selected Castes, this Table has also been compiled for the first time at the present Census. Unlike the former the Castes selected for the purposes of this Table are confined to certain occupational castes only in order to show the extent to which their traditional occupations are retained by them as their principal or subsidiary means of livelihood, as also to show the extent to which they forsake them in favour of others. Columns 3 to 8 show the total number of persons of each Caste. The figures in columns 15 and onwards are inclusive of the figures shown in columns 11 and 12, but exclusive of those shown in columns 9, 10, 13 and 14. The figures in columns 9 and 10 include those in columns 13 and 14. The figures in columns 9, 10 and 15 to 64 (combined) total to the figures in columns 3 and 4.
2. Part B is a new feature of Imperial Table XI. It shows the distribution of Workers and Working Dependants in certain important groups of occupations by principal Caste, Tribe or Race.

IMPERIAL TABLE XIV

Education by Selected Castes, Tribes or Races

Note.—This Table falls in the category of Imperial Table VIII, and comes to be compiled for the first time for the State at the present Census. The Castes selected for the purposes of this Table are just the same as those selected for Table VIII, and the statistics appertain only to such of their members as are aged 7 and over.

IMPERIAL TABLE XV

PART A.—Language

PART B.—Bilingualism

- Note.*— 1. Until the last Census, this Table consisted of Part A.—Language only. But at the present Census, Part B has been added to show the extent of Bilingualism in the State. Part A classifies by Mahal the mother-tongues returned, according to the revised Scheme of Classification suggested by Sir George Grierson in his Linguistic Survey of India. Part B shows the number of persons speaking different mother-tongues, as also of those speaking languages subsidiary to each of them.
2. The special lingo spoken by the wandering tribe of *Adodias* is shown under the Gipsy language.
Marwari has been included in Rajasthani.
Kachchhi, though a dialect of *Sindhi*, is shown separately, because of its local importance.
Hindustani is similarly shown separately from Hindi under the same group as Hindi.
3. Some persons were returned as speaking more than one subsidiary language. In the Table, they have been shown under the respective subsidiary languages known to them. There are 32 persons knowing two, 7 knowing three, and 1 knowing four subsidiary languages.

The following is the list of entries relating to Tri, and Poly-lingualism :—

IMPERIAL TABLE XVIII

Variation of Population of Selected Castes, Tribes or Races

Note.—Primarily this Table aims at comparing the population of selected primitive and jungle tribes only, since 1881. But as no such tribes are to be found in the State, the variation in the numbers of certain selected castes and races is given. The Table is compiled for the first time as an Imperial Table, and the statistics necessary for its compilation have been taken from Imperial Table XVII, and the corresponding Table of 1921. Again as the Table for castes was compiled for the first time in 1921, figures for the previous Censuses are not available. Only those castes for whom the figures are available from the table compiled at the last Census have, therefore, been selected.

IMPERIAL TABLE XIX

Europeans and Allied Races and Anglo-Indians by Race and Age

Note.—The figures for Europeans and Allied Races and Anglo—Indians enumerated in the State are shown in this Table by Race and Age. No Armenian was returned in the State, neither was any Anglo-Indian.

The following statement gives the actual ages of European British subjects born in (a) England and Wales and (b) Scotland :—

IMPERIAL TABLE XX

Summary Figures for Mahals

Note.—This is a new Imperial Table compiled at the present Census. It supplies the figures of area, and distribution of population of the Mahals of the State by religion. In it are compared the population, percentage of variation and density per square mile for the Censuses of 1921 and 1931.

BHAVNAGAR STATE CENSUS

1951

STATE TABLES

STATE TABLE I

Area and Population of Mahals and Tappas

- Notc.*—1. The State compiles this Table and the next for the first time at the present Census. The figures in this Table are given by Tappa, an administrative unit lesser than the Mahal. Area in square miles, the number of towns, villages and occupied houses and density per square mile in 1931, as also the population and percentage of variation at the past two Censuses are shown in this Table.
2. During the past decennium, Sakhabadar and Rajapara, villages in the Bhandaria Tappa of the Daskroi Mahal have been transferred to the Trapaj Tappa of the Talaja Mahal. Necessary adjustments have, therefore, been made in the population of these two Tappas and their corresponding Mahals, as recorded at previous Censuses, in conformity with the changes in area effected as aforesaid.

STATE TABLE II

Population of Mahals by Religion and Literacy

Note.—This Table shows the distribution of the total population by religion and literacy by the main age-periods of each of the Mahals of the State. The Hindu Castes have been classified into (i) Brahmans, (ii) other Hindus and (iii) Depressed classes, in accordance with the instructions issued in this behalf by the Provincial Superintendent of Census Operations, Bombay Presidency. The Bhangis, Chamars, Dheds, Garodas, Wankars, Agers and Meghvals who are really untouchables are classed as "*Depressed*".
